Biography: King Kevin Dorival received his education at the Florida Atlantic University, which was a mission impossible. For two years he worked in the Student Government organization as a part-time secretary/assistant to the S.G. presidents. Before and after obtaining his bachelors in Political Science he worked at multiple restaurants to support himself while in school. Eventually, he started a career in the promotion and marketing of urban night clubs with some of the hottest hip-hop stars during the late 2000s. During this time is when he started a clothing line, One Woman Army and One Man Army, Inc. During the process of obtaining the trademark for the clothing line he caught the attention of the United States Army; they objected to him obtaining the trademark since it resembled their old slogan, "Army of One." Determined not to give up after about two years of rebuttals and legal work he was given an unprecedented victory by winning the trademark.

Mr. Dorival joined a local community program in 2007 called Community Redevelopment Agency (CRA) of Pompano Beach, FL. He joined the Small Business Loan Program that taught the citizens of the community how to: create business plans, start or expand a business and how to become a successful entrepreneur. He started a career as an author, and wrote three books, "*The Courage To Believe*" - inspirational autobiography, and relationship/history book, "*Winner In the Mirror – Activating Your Super Powers: Mind, Body, and Spirit*," a motivational, self-help book," "*7 Types of Queens, Kings Desire*." He has also produced two films and a stage play to empower and motivate school teenagers, "*Courage to Believe: Never Give Up*," and *Courage To Believe International, Inc.*, a 501(c)3 nonprofit organization, which was founded by him in 2014. The organization's claim to fame came from the annual Black On Black Crime Solutions Panel and the C2B Chess Club & Mentoring Program.
